

10 Billion Beats

A Global Intention Event

7:00 PM, Sept. 16th. & 17th.,

2011

10 Billion Beats is

a global intention event that uses drumming to send a wave of positive intention around the world.

Starting in Central Daylight Time on 9/16/2011, the event will follow the sunset westward. Drums will sound for one hour at 7:00 PM in each time zone as the intention circles the Earth and concludes 24 hours later on 9/17. Participation is free.

The world is changing all around us. This event is for everyone who would like to positively effect the Earth and all her inhabitants through the power of collective prayer.

This is a grass-roots idea not a commercial event. It works because people like you tell others about it. From one, we have become many. As many, let us stand as one.

One Intention. One Planet.

Peace TO Earth

Goodwill ON Humankind

We invite you to join with the world this year in a creative cadence of unity.
